

3D Ceiling Tiles S-5.37 in Granny Smith and Custom Colours

3D Ceiling Tiles

Distributed by

Whimsical, sculpted ceilings

A side-step from the traditional acoustic ceiling tile, 3D Ceiling Tiles offer both form and function—lending their abstract, three-dimensional shape to the architectural pursuit of a ceiling that begs you to look up. Made from 100% polyester fiber, 3D Ceiling Tiles are lightweight and structurally sound, designed to be direct fixed or fit within a standard ceiling grid. As sculptural acoustic art, 3D Ceiling Tiles hold their own—a statement design feature and high-performance acoustic treatment in one fell swoop.

Features and benefits

- Delivers excellent acoustic performance
- Designed to fit traditional ceiling grids
- Available in five designs and 15 vibrant colors

Applications

- Decorative and functional acoustic tiles for residential, office, education, retail, hospitality, and commercial interiors
- Control noise in interior environments and create unique sculptural features

Caring for the Environment

3D Ceiling Tiles are manufactured using 100% polyester fiber and contain a minimum of 55% recycled fiber (from PET plastics). Our products are designed to be recycled at the end of their life too.

We have continual improvement programmes in which we implement a range of initiatives to mitigate the environmental 'hotspots' that we have identified. Our products are GreenRate Level A, Health Product Declaration (HPD), and CDHP Standard certified.

3D Ceiling Tiles are DeclareSM certified to be Red List free and can be used in Living Building Challenge projects. Autex has a high functioning Environmental Management System (ISO 14001) to enhance our environmental performance and contribute to sustainable development.

Declare.
