# Go ahead, embellish it

Etch™ is a customisation tool used to create both simple, understated patterns and intricate, eyecatching motifs. Laser etched, the embossed and debossed patterns give the fabric a tactile quality—a lick of luxury for decorative wallcoverings, acoustic panel overlays, and furnishings.

### Features and benefits

- Can be used as a furnishing fabric, wallcovering, and acoustic panel overlay
- Endless customisation options
- Choose from a palette of 30 colours

### Applications

- Decorative customisation for a variety of applications in interior spaces
- Overlay on an acoustic backing for a decorative acoustic treatment
- 6 mm, 12 mm, 25 mm, and 50 mm thick acoustic backing options available

# Caring for the Environment

Etch is manufactured using 100% polyester fibre and contains a minimum of 80% recycled fibre (from PET plastics). Our products are designed to be recycled at the end of their life too.

We have continual improvement programmes in which we implement a range of initiatives to mitigate the environmental 'hotspots' that we have identified. Our products are GreenRate Level A, Health Product Declaration (HPD), and CDHP Standard certified.

Etch is DeclareSM certified to be Red List free and can be used in Living Building Challenge projects. Autex has a high functioning Environmental Management System (ISO 14001) to enhance our environmental performance and contribute to sustainable development.
