Concrete style and strength, the clever way. Viroc is the clever new product transforming interiors with the elegant, industrial style of concrete – the easy way. A cement bonded particle board (CBPB) Viroc combines the flexibility (and easy workability) of pine wood particles with the strength and durability of cement. Achieve a polished, raw or sanded concrete feature wall finish in a variety of colours. It's the smart way to make a statement in the interiors of modern homes, bars, foyers, auditoriums, commercial fit-outs and joinery applications.
